ASP President and CEO, Walter Crouch, stated, "We are so excited to have reached this amazing milestone in our history, and want to celebrate our past and talk about our vision for the future with all those who have supported us and helped us to reach this goal. Please come out and see us, we'd love to have you!"

ASP was founded in 1969 by a United Methodist minister, Glenn "Tex" Evans, to utilize volunteers to complete major home repairs for low-income families living in Central Appalachia.

Since 1969, over 410,000 volunteers from across the nation have repaired 18,347 homes and, in the process, Appalachian families, volunteers, and staff have been immeasurably blessed.

Today, with the help of more than 15,000 volunteers each year, our goal remains to make homes warmer, safer and drier for families in need. Yet ASP is more than a home repair program. It also provides a unique framework that fosters transformational experiences for volunteers, families served, and staff — by building relationships with each other that break down cultural, social and economic barriers. We often hear of significant life changes resulting from the ASP experience: of families renewing their faith in the goodness of others, of people newly motivated to continue their education, of young adults choosing careers of service. No one walks away from the ASP experience unchanged. The results are truly amazing!

ABOUT APPALACHIA SERVICE PROJECT

Appalachia Service Project (ASP), is a Christian ministry, open to all people, that inspires hope and service through volunteer home repair and replacement in Central Appalachia. Since 1969, ASP volunteers have been making homes warmer, safer and drier for families in need in Central Appalachia and providing life-transforming experiences for everyone involved. In recent years ASP has expanded its outreach to include building new homes for low-income families whose homes were destroyed by fire or flooding and others whose homes are beyond repair. This year ASP will have over 15,000 volunteers working in 5 different Central Appalachia states helping over 600 families with home repairs and new construction.
